

Freedom Website Launch

Monday, 30 June 2008

Summer is here, the sun is out and Freedom is celebrating its new website launch. Freedom, WTB's pavement-focused brand, is dedicated to delivering quality products for sport road, hybrid, comfort, and urban bicycles.

In the coming weeks, this blog will be used as a medium for information related to transportation, the environment, economy, advocacy, and of course, Freedom's product and advocacy efforts.
